A variety of function tables are included, in which students must complete tables involving the basic facts of addition, subtraction, multiplication, and division.Can I try this deck of Boom Cards?Of course! CLICK HERE to try a Free preview.★ 20 Digital Task cards, designed to provide practice with findingPage 9Input Output Tables - Number Patterns in a Tableby In this product, you will receive 16 input output tables (12 with just tables, 4 with word problems and tables) that use all operations. You will also receive a self-help page for students so that they can ask themselves questions to get to the correct missing number. A recording page and answer sheet are included.Uses: - Math stations- Whole group- Place a couple of cards on each table and have students walk around the class to work on problems individually.- Turn and talk activities. Students cFunction machines, or Input and Output Boxes, are an important concept for students. They require algebraic thinking and problem solving skills. I designed this activity pack for my students to use during math centers. They can use one character's boards and matching "function" cards to practice this skill. The boards and cards get progressively harder so you can easily differentiate for your students. I use these boards and cards by photocopying the boards for the students so they can wWhat's My Rule?: Input and Output Tablesby I worksheet, 4 pages Directions: Find the pattern for each table, complete the chart and circle the Rule. 8 Input / Output Charts for students to complete Prior knowledge of patterns, addition, subtraction, multiplication and division are required to complete this lesson. Hope this helps -) What's My Rule?: Input and Output Tables by Felisa Williams is licensed under a Creative Commons Attribution-NonCommercial-NoDerivs 3.0 Unported License.This fun practice activity with the verbs ser, tener, and ir in Spanish will give your students repetitions of 3 of the Super 7 verbs. These high frequency verbs in Spanish are used in multiple forms (see below!) to target 1st, 2nd, and 3rd person. As your students practice they will create a story using these high frequency Spanish verbs. There are over 14 possible story creations! This activity is perfect for whole class instruction, individual in-person or virtual assignments, or even sub plaTeacher IEP Input Formby This editable document can be used to get input from teacher regarding speech and language skills. It can be easily emailed and returned by teachers. The teachers can just click and type the information for each student. ***** You may also like: SOAP Note Thank you for considering this product. ----- TPT Credits You can gain TPT credits by going back and leavingFrench Comprehensible Input Lesson | Le Noëlby Comprehensible input is important in a world languages class - but you can't always do stories. This is a lesson that uses target structures in a comprehensible way to teach about a non-fiction topic - how France celebrates the Christmas season. The text is appropriate for 2nd semester French and later.The target structures are:les enfants cadéauxdecórón mangeYou may also like: - an editable 18-slide powerpoint with repetition of the target vocabulary - a text version of the powerpoint• compreThird grade students will LOVE this interactive task card set as they practice the dance with Oscar because her mother makes her stay home. Oscar doesn't get the message and... Then, Melanie calls her boss to tell him she can't work that day (She's faking it). He keeps asking her how long she has been sick, had a Page 15Introducing Input Output Tablesby Kori Markusson - True Tales of a TeacherThis product is designed to help model and introduce what input output tables are and what the rule in them means for each different table. The class will be modeling each problem and filling in the tables as they act it out. They will then apply that learning to their own models and scenarios.These slides can be modeled by projecting, or you can post them on a digital platform like seesaw or Google Slides. There is an addition input output scenario and a multiplication. Each scenario will alsoGerman Comprehensible Input Lessons | Bundle #1by Make learning German fun with these simple, comprehensible input German lesson plans and stories. Each lesson plan includes a story with targeted structures that can be repeated to give your students lots of repetitions. Comprehension activities to use after the story will allow you to engage your students and make sure that your German lesson is truly comprehensible input. Each story and lesson has a set of target structures that are used again and again in the story. The target structures forGoogle Slides: Input and Output Tablesby Here are 39 Google Slides with input and output tables. On the first ten slides, the rule is given. On the last ten, the students find the rule and fill out the table. The four are the challenge ones!You can print them out or assign them to Google Classroom.An answer key is provided on slides 21-39.Subjects:0This bundle includes three Numerical Patterns and Input Output Tables resources for 4th grade. Included are a complete unit with lesson plans, a set of ten stations, and a Digital Stinky Feet review game. Each element can be found alone, but you can purchase together to save. Numerical Patterns and Input Output Tables Unit This eight-day numerical patterns and paired number tables (input-output tables) unit is designed to meet the needs of fourth-grade TEKS and CCSS classrooms. It includes teaSpanish One and Two Videos for Comprehensible Input for the vocabulary and concepts in Spanish One and Two with native speakers and Spanish subtitlesWhat's better comprehensible input than conversation with a native speaker? Videos of native speakers with Spanish subtitles AND overlaid visuals and animation to aid in comprehension, with music and corresponding activities for recycling and repetition of vocabulary and concepts.To see a video preview for Spanish One movies, click here: Spanish One VideosTo do you want your students to enjoy learning about input/output tables? Do they love stories themed Math? Combine those two ideas with this winning combination of a lesson (teaching addition tables, multiplication tables, and find the rule tables) and an assessment to determine what your students learned. Students will enjoy this fun take on input/output tables with three sets of input/output tables (one addition, one multiplication, one find the rule), focused on athletic events. Great for use iThis purchase contains ALL SIX Stories. (Priced at \$3 each when purchased individually)Tell your classes the tale of two characters named Pepinillo and Nectarina in my semester one SIX story arc. These google slide stories will engage your students with bright visuals and allow them to absorb vocabulary through comprehensible input. You could easily turn these into PearDecks if desired. Pepinillo and Nectarina star in 6 stories in this order:School (Realidades 2 - 1A)Extracurricular ActivitiesTypes:Input Output Board Gameby This game is designed to teach the 4th grade STAAR TEK (4.5B) that deals with input output tables and the position in sequence. I designed the questions to mirror that which are found on the STAAR test. Hope you like it :)Subjects:Input Output Table Patterning Task Card Activityby One and two-step pattern rules in input output tables are included in this number patterns task cards and more resource. Students will identify the pattern rules and complete the pattern input output tables according to the rule.This activity includes:• Learning Goal and Success Criteria - this page can be posted or projected before the lesson. •Minds-On Task - this page can be used as a diagnostic, entrance slip,

mini lesson, or a full group introduction to the task. *15 Task Cards - these taskRelationship Tables (Input-Output Tables) by Supports 3.5E and 4.5B (New Math TEKS, Texas 3rd and 4th Grade Math) for missing numbers on relationship tables (input/output charts, T-Charts, ordered pairs in a table). These cards can be used in a guided math group, as a station, as a scoot game, or put one or two cards on the board each day as a review.How Was Your Thanksgiving Break? Input Formby Parents/students may fill this form out during Thanksgiving break, to have when returning to school. This gives the classroom more information about what happened over a child's school break. This is a great resource to use for children who are nonverbal, have difficulties recalling, or for students who are ready to draw/write about their experiences to recall for a group. This is a PDF file, which cannot be edited. If you would like the editable version, please contact me. This is my first paPage 16Need standards-based, comprehensible input readings for many topics? These are no prep, no copy, engaging activities designed to save you lots of time and to improve your students' proficiency in French through listening, reading, writing, and speaking. These activities help students make connections to the products, practices, and perspectives of French & Francophone culture. On the individual product pages, there is more information and a video preview.Who is this resource for?* intermediaPage 17Need standards-based, comprehensible input vocabulary, readings, and conversations to teach Global Challenges unit to get your students talking in French about tolerance, health, GMOs, environment, immigration, and secularism? This bundle is designed to save you lots of time, provide a variety of activities to keep your students engaged, and help them become more proficient. These activities help students make connections to the products, practices, and perspectives of French & Francophone cPage 18This Spanish comprehensible input story features the Spanish verbs: buscar, encontrar, mirar, saber, and tener miedo in the present tense. This story is accompanied by 3 comprehension check activities. Students will receive lots of comprehensible input with the target structures busca, encuentra, mira, tiene miedo, sabe. This story is a great refresh on present tense AR verbs in Spanish and the tener expression: tiene miedoStory Preview:Roberto the robot is having a rough day, and it's only gettPage 19This deck of 20 Boom Cards is designed to help students understand input / output tables. Students will look at each table and decide which rule applies. When they select their answer from the multiple choice format, they will receive immediate feedback. This deck is a mixture of basic multiplication and division facts. There are 10 cards for multiplication and 10 cards for division. It's perfect for fast finishers, interventions, assessment, practice, homework, math centers, tutoring, andPage 20Are you looking for Spanish AR verbs practice? This Spanish comprehensible input story features the Spanish verbs buscar, encontrar, mirar, tener miedo, and saber in the present tense. This story is accompanied by 3 comprehension check activities. Students will receive lots of comprehensible input with the target structures busca, encuentra, mira, sabe, and the tener expression tiene miedo.
